

Staffing Solutions for BioTech and Pharmaceutical Companies

About us

Tech Exec Partners is a dynamic search firm with a solid track record in locating highly talented, skilled and pre-qualified individuals to meet our clients' staffing needs.

Serving the national pharmaceutical and biotech sector, we bring in-depth technical knowledge of this field to every job search, allowing our clients to choose top candidates that specifically meet their requirements. We fulfill Contract, Contract-for-Hire, and Consulting placement orders.

We understand the unique needs of biotech companies

Tech Exec Partners delivers pre-qualified applicants in a timely fashion. Our candidates possess superior skills and training specific to the biotech industry, allowing them to "jump in running" when they are placed in a new project. Our focus is to provide our clients with the very best solution for their specific job needs. We provide the right candidate for the job.

Tech Exec Partners provides candidates with the skills and support necessary to get your projects finished on-time, on budget and in compliance

At Tech Exec Partners, we know the premium placed on our clients' time. We thoroughly screen candidates so that our clients only see the best of the best. Using our extensive industry knowledge and understanding the specific needs of our clients, we send candidates who will fit into your environment and make you shine.
