

Providing Fast and Efficient Solutions for Temporary Staffing

TEMPORARY STAFFING • DIRECT HIRE

ABOUT US

Tech Exec Partners, Inc is a dynamic recruitment firm with a solid track record in delivering pre-screened/pre-qualified, highly talented, skilled and motivated individuals that meet our clients' exact **temporary** staffing needs.

One of our key distinctive competencies is our ability to apply in-depth, industry-specific knowledge, coupled with a multi-faceted array of recruiting resources and expertise, to create an ideal match for each job assignment.

We serve a national client base, representing a cross-section of Fortune 500 corporations, in addition to emerging, fast-growth companies. Our clients have come to trust and rely upon our responsiveness and the preeminent level of service we deliver in addressing their corporate staffing needs.

OUR COMMITMENT

First and foremost, we recognize that every client is unique. We approach each assignment with a focus on gaining an in-depth understanding of your business objectives, staffing requirements, available resource budget and any organizational "nuances" relevant to achieving a successful placement.

We work collaboratively with our clients from needs assessment and candidate identification to interview process facilitation and evaluation. We then proceed with reference and background checks, negotiations and job offer acceptance as well as on-going performance evaluations.

Our dedicated research staff selectively targets highly-trained, successful candidates who are pre-screened for their career goals, technical abilities, and aptitude for advancement.

We employ a comprehensive hiring and evaluation process, including a personal, in-depth interview with each candidate, in order to recommend the most appropriate individual to meet your staffing requirements.
